PROFILE

A solution-focused interaction design student who turns complex problems into accessible, intuitive user experiences. I take a human-centred approach, from user research and testing to finished prototypes, with universal design embedded throughout the process.

I have led design work in cross-functional teams, won bronze at HealthHACK 2026 and presented concepts to banks and municipalities. My background in theatre production in the UK and on international cruise ships has taught me to collaborate across disciplines and cultures.

EXPERIENCE

SYSTEM ANALYST (SUMMER INTERNSHIP) - UX & AI | JUNE - AUGUST 2026

Tieto Banktech, Trondheim

- Sole UX/UI designer in a cross-functional team, leading the full research and design process for an AI agent concept for bank customers
- Led user research through a survey (90 responses), 5 in-depth interviews, affinity mapping and usability testing with 4 participants
- Delivered information architecture, user flows, and high-fidelity prototypes in Figma
- Presented the concept at AI Inspiration Day and Tieto Banktech User Forum

UX COLLABORATION | MAY - JULY 2026
